

LONGHAIRS AND SHORTHAIRES ARE JUDGED AS TWO SEPARATE BREEDS. FOLDEX STRAIT IS A CONSTITUANT CROSSING.

The Foldex breed is man-made breed and was established by mating the Scottish Fold and the Exotic. The cat blends the physical features of the two parent breeds in moderation, creating a cat which has a sweet open expression with a gentle fold to its ears.

## I – BODY/CONFORMATION (40)

(15) BODY – Medium in size, cobby, massive, well-developed musculature, medium to heavy boning. Wide chest, rather low on its legs, with well-proportioned overall appearance.

(10) LEGS & FEET - Legs strong, short, well developed muscled and straight. Feet rounded and firm. Toes close together, not splayed, five in front and four in back.

(15) TAIL – Medium, in proportion with the length of the body, thick and FLEXIBLE.

## II – HEAD (40)

(10) HEAD – Broad skull, round and massive head and rounded forehead. Cheeks are prominent on the female and full on the male. Short muzzle, powerful jaws, maxillaries reflecting proper bite. The neck is short and powerful with a good muscle tone.

(10) EARS – Small with rounded tip. Ears have a single fold forward in a downward direction. Ears are set far apart and low on the head.

(10) EYES – Large, round, set far apart, wide open producing a sweet expression. Eye colour is to correspond with coat colour.

(10) NOSE – Medium to short nose with a slight concave curve and moderate break.

## III – COAT/LENGTH (10)

LONGHAIR – Medium to long hair, soft, glossy, full of life, standing out from the body due to its density.

SHORTHAIR – Short, plush, even, soft and silky in texture, sufficiently dense to stand out from the body.

## IV – COLOUR (5)

All colours and patterns, and combinations are accepted.

## V – CONDITION & BALANCE (5)

The ideal Foldex leaves the impression of an alert and healthy cat. A balanced cat will show a harmony of design throughout. Nothing is extreme in this breed, all features are moderate.

## OBJECTIONS

Delicate boning	3-5
Long legs	3-5
Small eyes or close set	3-5
Eyes lacking roundness	2-4
Ears set too high on the head	2-4
Tightly folded ears	3-5
Nose which is too long or too short	3-5
Lack of nose break or extreme nose break	2-4
Long neck	1-2

## WITHHOLDS

Tail lacking in flexibility due to fused vertebrae  
 Abnormalities of the legs and feet due to calcium deposits  
 In pointed cats, eye colour other than blue  
 Triangular shape head  
 All grounds for withholding awards as listed in the General Preface
